1. **HEALTH EMS SUBSCRIPTION RENEWAL -- EMERGENCY MEDICAL SERVICES
FUNDING -- EMERGENCY MEDICAL SERVICES**

(Software Maintenance Renewal)

#14-2013 Contract

Subscription Fees	ScanHealth, Inc. dba Sansio
Year one	\$59,292.00
Year two	\$61,044.00
Year three	\$62,892.00
Three year total	\$183,228.00

On the recommendation of Kim Evans, on behalf of Emergency Medical Services, Linda Kizzire moved **to accept the renewal quote from ScanHealth, Inc. dba Sansio for a three year total of \$183,228.00.** Tim Kaufman seconded the motion. The motion passed unanimously.

Electronic Patient Care Reporting software provides real time reporting technology in each ambulance via the laptops that are installed in each vehicle. This system allows users to report real time patient care information and send it to hospitals, billing and insurance companies. This meets criteria for increasing productivity, revenue, and efficiency.

Subscription costs are obtained using projected number of transports over one year.

Note - Over the last five years, the county has spent approximately \$212,000.00 on this subscription service.

Question: Is pricing tied directly to the number of transports? Scott Hadley, EMS Director, answered that the estimated annual subscription fees are based on estimated number of calls, whether the call resulted in a transport or not. The price per call (record) was negotiated and will remain the same as it was over the past 5 years.

Sedgwick County currently owns and operates a 4 site 800 MHz data system that was provided by CalAmp. The system is used by all Public Safety users in Sedgwick County and typically has 500-650 users on it at any given time. As the data system is near the end of its life cycle, the County would like to start migrating users over to commercial carriers LTE networks. In order to meet the needs of the various Public Safety entities the county found a solution that can be used on Verizon, T-Mobile, AT&T, or Sprint's data networks.
