FOR IMMEDIATE RELEASE

Sedgwick County Fire to Hold Air Bag Demo

(Sedgwick County, Kansas) – Sedgwick County Fire District #1 will hold a demonstration of the air bags which were donated by Farm Bureau Agricultural Association on Monday, October 25 at the Lynn Buerki Farm, 14707 W. Pawnee, at 11 a.m.

The air lift rescue bags are designed specifically to help firefighters with farm and ranch rescue operations.

"This demonstration will allow the Sedgwick County Fire District to train in the use of these important tools to be prepared to help victims of farm-related accidents, " said Sedgwick County Commission Chairman Tom Winters.

Sedgwick County Farm Bureau Agricultural Association donated six air lift rescue bags and the related accessories in the amount of \$7,500 to the Sedgwick County Fire District in September during "National Farm Safety and Health Week."
