FOR IMMEDIATE RELEASE

SEDGWICK COUNTY WELCOMES ONEX CORPORATION

(Sedgwick County, Kansas) – “Sedgwick County welcomes Onex Corporation to our community and we look forward to helping them play a major role in the aerospace industry, and grow in our community,” said Sedgwick County Commission Chairman Dave Unruh. “They are fortunate to have a strong, well-trained workforce already in place, with a great history of producing quality products. As one of our community’s major employment centers, we know this facility is an important part of our local economy.”

“Of course, Boeing has been a strong community partner for Wichita and Sedgwick County, and we will continue to see the results of their leadership and generosity throughout our community for years to come,” said Chairman Unruh. “I’m hopeful that Onex Corporation will recognize the unique public/private partnerships and opportunities that exist in our community to help make this a great place to work, do business and enjoy life.”
