FOR IMMEDIATE RELEASE

Sedgwick County Public Works Announces Temporary Bridge Closings

(Sedgwick County, Kansas) – Sedgwick County Public Works will close the bridge located at 83rd St. South and the Arkansas River on Monday, October 30. The bridge will be closed beginning at 9 a.m. and will re-open later that afternoon.

The suggested detour route during the closure is 63rd St. South between K-15 and Hydraulic.

In addition, beginning Monday, October 30, The Kansas Turnpike Authority will close the bridge located on 143rd St. East and the Kansas Turnpike (just south of Central) for approximately a week for bridge repair. Though 143rd Street is maintained by Sedgwick County, this closure is being conducted by the Kansas Turnpike Authority.

The suggested detour during this closure is: East on Kellogg (US 54) to 159th St. East, then north to Central, and West to 143rd St. East.

“We understand that these closures can cause some minor delays,” said Sedgwick County Commission Chairman Ben Sciortino. “However, it is our duty to be sure that the roads within Sedgwick County are maintained for our citizens’ safety.”
