Sedgwick County Fire District to Conduct Workshop for Insurance Agencies

(Sedgwick County, Kansas) –The Sedgwick County Fire District will conduct a workshop on Wednesday, June 28 at the Sedgwick County Extension Center, 4H Hall, 7001 W. 21st St. N. beginning at 9 a.m. in order to address and explain recent changes in fire protection classes in rural Sedgwick County. Insurance agencies, agents and underwriters are invited to attend.

With these changes, many homeowners will have the opportunity to see their homeowners insurance reduced. About 8,000 letters have been sent to homeowners who could be affected, and this has prompted many questions to insurance agencies.

“The Fire District is holding this workshop in order to better explain the changes in fire protection for rural Sedgwick County residents,” said Sedgwick County Commission Chairman Ben Sciortino. “We are very excited that these changes may mean reductions in insurance premiums for some of our citizens.”
