1.	None of the features on the exterior of this facility were accessible.		This building clearly states on the front entrance door that it is not open to the public. ADAAG requires newly constructed, altered, and additions to existing facilities to be accessible, complying with ADAAG specifications. However, existing facilities, which are employee only facilities, not open to the general public, are not required to comply with ADAAG specifications, except modification that may be necessary under the employment provisions (Title I). <b>Therefore, we do not recommend making this facility accessible unless it is opened to the public.</b>				<a href="#">1</a> <a href="#">2</a> <a href="#">3</a>	\$0
