Calendar Days to complete	2-14 days	45 days	60 days	30 days

The recommendation of Purchasing and the Security Office is to **accept the low proposal from Midwest Digital Systems in the amount of \$10,768.00.**

Lela Albright and Loren Miller - Security Office and Joe Thomas - Purchasing evaluated proposals as to content, price, and experience offered. Midwest Digital Systems offered the best overall proposal for the County.

* - Sandifer Engineering & Controls, Inc. under the add alternate, figured the extended price as \$887.00 but should have been \$886.00 based on the unit pricing. Subsequently the total cost should have been \$2,386.00.

** - Simplex Grinnell figured the total cost for the base bid and the add alternate, however, they failed to fill in the labor cost for both.
