Acknowledge Addendum	Y	Y	Y	Y		

On the recommendation of Ted Knoblauch, on behalf of Fleet Management Ron Estes moved to **accept low bid meeting specifications from Wichita Kenworth Inc., option 3 in the amount of \$844,606.75.** Jennifer Dombaugh seconded the motion. The motion passed unanimously.

Low bid from Kansas City Freightliner did not meet specifications for fuel tank location, bumper to back of cab dimension, storage compartment under passenger seat, stainless steel mirrors and aluminum step on right side.

All are replacements for Public Works and surplus will be sold on GovDeals.com

Discussion was held regarding why vendors bid options. Vendors bid options because they are bidding different manufacturer's of various parts. The differing options bid also provide variations in price and meeting specification or not meeting specification.

The County's life cycle plan for these vehicles is 12 years.
