Date available for pickup	ASAP		
No Bid		A Plus Logistics, LLC	Bob Bergkamp Construction
		Pearson Construction, LLC	South West Butler Quarry, LLC

On the recommendation of Josh Lauber, on behalf of Public Works, Ellen House moved to **accept the overall low bid from Cornejo Materials for an initial purchase in the amount of \$19,750.00 and establish contract pricing for one (1) year with two (2) one (1) year options to renew.** Linda Kizzire seconded the motion. The motion passed unanimously.

SB-2 Aggregate is used as the base material below concrete drainage structures or as drainage pipe backfill. The bid from Cornejo Materials represents a 1.28% price increase from the last contract established in 2015.

**\* NOTE:**

The additional mileage and labor involved in picking up from Mid-States Materials, LLC (Mid-States) would incur an additional pick-up cost of \$22.93 per ton to their base bid. Mid-States is located in Grenola, Kansas, which is 63 additional miles to travel in each direction.

**Questions and Answers**

Russell Leeds: You state that the \$19.75 per ton is the overall low bid, can you speak to the Mid-States Materials, LLC bid?

Jim Weber: This is material that we buy and then we haul it with our own trucks and people. Mid-States Materials, LLC is 70 miles down the road and Cornejo Materials is seven miles. When we take the trucking costs and add it to the cost of the actual material Cornejo Materials is considerably cheaper than going down to southwest Kansas to pick up Mid-States Materials, LLC. Then the middle bid when adding the trucking it would be higher than the low bid. The overall lowest cost is Cornejo Materials.

Russell Leeds: It's the best proposal based on a number of factors?

Jim Weber: Yes.
