Questions and Answers

Tim Myers: I see in the notes we used a different vendor and we were about the same price last year, is that correct? Do we know about how much was last year's total cost for what we collected?

Susan Erlewein: We have a special project fee set aside from the solid waste fee that handles this. We won't know how much is going to come in until after the event. Last time we had this was two (2) years ago, we had 180,372 tires delivered. The time before that was 101,193 tires, so you see it varies quite a bit.
