- During the month of May Sedgwick County Developmental Disability Organization (SCDDO) Quality Assurance Staff completed 12 day and 13 residential program visits.
- The Kansas Legislature approved pulling a statewide total of 500 individuals with intellectual/developmental disabilities (IDD) off the waiting list for Home & Community-Based Services (HCBS). SCDDO staff have been busy preparing for this influx of new persons in the IDD system. Approval was received to begin conducting functional assessments early for those scheduled to receive a service offer. Data on those on the waiting list was gathered and shared with providers to facilitate capacity discussions.
- In May, two SCDDO staff attended the START National Training Institute. START is an evidence-based community crisis prevention and intervention service model for individuals with IDD and co-occurring mental health diagnoses. The SCDDO is working with the National Center for START Services to create an effective crisis system in Sedgwick County. The training institute brought hundreds of START team members, self-advocates, families and national/international leaders together to share expertise, tools and best practices.
